It is also an independent, professional, non-profit international level organization. Society has successfully organized 135+ conferences, seminars, symposiums and other educational programmes at national and international level in association with different educational institutions.

Objective of the Conference

Connecting Diverse Perspectives: "Interdisciplinary Research" could be to foster collaboration and knowledge exchange among researchers from various disciplines with the goal of:

Promoting Cross-Disciplinary Understanding: Encouraging scholars to explore connections and commonalities among different fields of study, leading to a deeper understanding of complex, multifaceted issues.

Cultivating Innovative Solutions: Creating a platform where diverse perspectives can come together to generate innovative solutions to real-world challenges that may require a multidisciplinary approach.

Sharing Best Practices: Providing a forum for researchers to share their experiences, methodologies, and successful interdisciplinary research projects, facilitating learning from one another.

Nurturing Networking and Collaboration: Encouraging attendees to establish professional connections and collaborative partnerships that may lead to future interdisciplinary research projects.

Showcasing Interdisciplinary Success Stories: Presenting case studies and success stories of interdisciplinary research that have had a significant impact on society, the economy, or the environment.
